Attachment No. 1

APPLICATION FOR ENCROACHMENT PERMIT GENERAL CONDITIONS

1. This permit shall, in all respects, be subject to and governed by the provisions of Chapter 5.5; commencing with Section 1450, Division 2 of the Streets & Highways Code of the State of California, except where expressly superseded by more stringent County Ordinances or provisions contained herein.
 2. The Permittee, by the acceptance of this permit, shall assume full responsibility for all liability for personal injury or damage to property which may arise out of the authorized work herein permitted or which may arise out of the failure on the part of the Permittee to do the work provided for under this permit. In the event any claim of such liability is made against the County of Tehama or any department, official, or employee thereof, the Permittee shall defend, indemnify, and hold them and each of them harmless for such claim.
 3. The Permittee agrees by the acceptance of this permit to properly maintain any encroachment placed by the Permittee on any part of the County Highway and to immediately repair any injury to any portion of the highway, which occurs as a result of the encroachment, until such time as the Permittee may be relieved of the responsibility of such encroachment by the County Department of Public Works.
 4. It is understood and agreed that the County has prior right to use of its rights of way. It is further understood and agreed by the Permittee that the doing of any work under this permit shall constitute an acceptance of all the provisions contained herein and failure on the Permittee's part to comply with any provision will be cause for revocation of this permit. Except as otherwise provided for public agencies and franchise holders, this permit is revocable at any time.
 5. The granting of this Encroachment Permit for the placing of Permittee's facilities within the County's maintained road rights of way does in no way warrant the location of the rights of way.
 6. Permittee is responsible for obtaining all required permits, approvals and/or easements.
 7. The Permittee shall, at all times, during the progress of the work, keep the County Highway in as neat, clean and usable a condition as is possible and upon completion of the work granted herein, shall leave the County Highway in a neat, clean, and usable condition.
 8. If the construction work covered by this permit is to be done by a private contractor hired by the applicant, applicant shall notify contractor as to the conditions and requirements contained herein.
-

The Permittee shall be responsible for the safe and effective movement of road users through area impacted by performance of work covered by this permit. This responsibility may require the implementation of temporary traffic control. Temporary traffic control within the County right of way shall adhere to the procedures, methods and guidance described in the current edition of the *California Manual on Uniform Traffic Control Devices* ("California MUTCD").

At the discretion of the County, the Permittee may be required to submit a temporary traffic control plan for review and approval by Public Works prior to any work. Permittee agrees to use proper signing and traffic control measures during the course of the work and until the pavement and/or shoulder has been satisfactorily restored.

At least one lane of any public road shall be kept open for travel by the general public at all times. No public road shall be closed to travel to the general public without special permission, in writing, of the Director of Public Works.

Permittee shall be responsible for the protection of existing facilities within the County road rights of way, whether said facilities are public or private, and assumes sole responsibility and liability if said facilities are damaged by the placing and/or operation of Permittee's/Owner's system and/or improvements.

In the event that the Permittee damages any existing facility, Permittee shall immediately notify the owner of the facility and Public Works as to the location and extent of the damage.

Permittee agrees to restore the work area to a condition satisfactory to the County Engineer within a reasonable period of time after the completion of authorized work. Permittee agrees to reimburse the County for all costs incurred should the County Engineer deem it necessary to correct conditions caused by the work.

The County Engineer, or his agent, may temporarily suspend Permittee's operation within the County road right of way when it is determined that Permittee's operation has or will be detrimental to the County road right of way.

No material used for the construction of the encroachment shall be borrowed or taken from within the county right of way.

Cement concrete drive approach and head wall are not allowed within the County Road right of way.

Whenever necessary to secure permission from abutting property owners, such authority must be secured by the Permittee prior to starting work.

No work other than that which is specifically described herein is allowed within the County right of way.

This permit may be revoked by at the sole discretion of the Road Commissioner

ENCROACHMENT PERMIT APPLICATION CRITERIA

- 1: There is a **5 day minimum** processing time on all applications.
- 2: All applications must be filled out completely and signed by property owner/ and/or licensed contractor.
- 3: “Location of work to be done” includes address of property and / or assessors parcel number and a description of the location (i.e.: distance from the nearest crossroad or other well-defined landmark).
- 4: Along with the application, a plot map showing the site location of the driveway approach must be submitted.
- 5: Applicant must place a flag or similar item at the location to help the inspector locate the site in the field for a pre-inspection.
- 6: If items #2 – 5 are not completed at the time of the pre-inspection, this application will be delayed or returned for additional information.
- 7: All work pertaining to the encroachment permit must be finalized or bonded for completion before home occupancy. Permittee has up to one year to complete permit requirements.
- 8. If you were required to obtain an encroachment permit prior to issuance of a building permit, then all construction outlined on the encroachment permit must be completed and Public Works final approval must be obtained prior to the Building Division being able to final your building permit. Contact the Public Works Department, 9380 San Benito Ave, Gerber, CA 96035, telephone 530-385-1462, Fax 530-385-1189, if you have any questions.**
